DETAILED ACTION

1. This communication is responsive to Amendment filed 04/20/2006.
2. Claims 1 and 3-38 are pending in this application. Claims 1, 3, 8, 22, 28, and 33 are independent claims. In Amendment, claim 2 is cancelled and claim 38 is added. This Office Action is made non-final.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
4. Claims 28-32 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 28-32 disclose a method of adding two number according to a mathematical formula. In order for method claims to be statutory, claims must either include a practical application at useful end or a concrete, useful, and tangible result. However, claims 28-32 merely disclose a mathematical method of adding two binary number without regard to a practical application, and fail to disclose a tangible result. Therefore, claims 28-32 are directed to non-statutory subject matter.

Allowable Subject Matter

5. Claims 1, 3-27, and 33-38 are allowed.

Response to Arguments

6. Applicant's arguments with respect to claims 28-32 have been considered but are moot in view of the new ground(s) of rejection.
